

Lab 6 | Using VIM

Question 2

```
Applications Places
abd007@cis240-fall21: ~
abd007@cis240-fall21:~$ cat linux.md
# What is Linux?
Linux is an open-source operating system. It is one of the most popular in the world. Android is powered by linux. From phones to cars, supercomputers and home appliances, home desktops to enterprise servers, the Linux operating system is everywhere.

# 3 Reasons to use Linux:
* Reason 1: Linux is open source. It's free for everyone.
* Reason 2: It is highly stable and not prone to crashes.
* Reason 3: Highly secured yet easy to use.
abd007@cis240-fall21:~$ cat linux+other.md

# What is Linux?
Linux is an open-source operating system. It is one of the most popular in the world. Android is powered by linux. From phones to cars, supercomputers and home appliances, home desktops to enterprise servers, the Linux operating system is everywhere.

# 3 Reasons to use Linux:
* Reason 1: Linux is open source. It's free for everyone.
* Reason 2: It is highly stable and not prone to crashes.
* Reason 3: Highly secured yet easy to use.

# Other operating systems
**Microsoft Windows** is a group of several proprietary graphical operating system families, all of which are developed and marketed by Microsoft.
**macOS** is a series of proprietary graphical operating systems developed and marketed by Apple Inc.
**FreeBSD** is a free and open-source Unix-like operating system descended from the Berkeley Software Distribution (BSD), which was based on Research Unix.
**RISC OS** is a computer operating system originally designed by Acorn Computers Ltd in Cambridge, England.
abd007@cis240-fall21:~$ cat GNU+Linux.md

# What is GNU+Linux?
GNU+Linux is an open-source operating system. It is one of the most popular in the world. Android is powered by GNU+Linux. From phones to cars, supercomputers and home appliances, home desktops to enterprise servers, the GNU+Linux operating system is everywhere.

# 3 Reasons to use GNU+Linux:
* Reason 1: GNU+Linux is open source. It's free for everyone.
* Reason 2: It is highly stable and not prone to crashes.
* Reason 3: Highly secured yet easy to use.
